

I support the Canadian Cancer Society's call to action for the Government of Ontario to:

- Ban the use of artificial tanning equipment by youth under the age of 18.
- Prohibit the marketing of artificial tanning targeting youth.
- Develop and maintain a registry of artificial tanning equipment in Ontario.
- Ensure all staff operating artificial tanning equipment are trained on operation procedures, maintenance and how to identify people at greater risk of developing cancer, particularly those with type I (fair) skin.
- Require that signage be placed in clear view of each bed clearly outlining the health risks of artificial tanning.

Hon. Margaret R. Best
Minister of Health Promotion

Did you know?

- Exposure to ultraviolet radiation, such as that emitted from artificial tanning equipment, during childhood and adolescence can increase a person's risk of getting skin cancer both now and later in life.
- Melanoma is the second most common form of cancer in young Ontarians aged 15-34 years.
Canadian Cancer Society

No Tan is Worth Dying For!

Urge the Government of Ontario to enact legislation which bans the use of artificial tanning equipment by youth under the age of 18.
